In developing this policy the University had regard to the provisions of section 40B(1)(b) of the Human Rights Act 2004 (ACT).

1. PURPOSE:

1.1. The purpose of this Policy is to:

- a. enable the University to identify, protect, manage and Commercialise its Intellectual Property;
- b. set out the entitlements of Staff, Students, Affiliates and the University in relation to Intellectual Property;
- c. support research and innovation within the University; and
- d. guide the allocation of the Net Proceeds of Commercialisation of Intellectual Property.

1.2. The University aims to encourage an environment in which learning, teaching, scholarship and research will flourish and adheres to the principle that knowledge and ideas should be made available for the benefit of the University community and used to maximise the benefits to the public.

1.3. This Policy aims to provide a cooperative approach to respect and reward those within the University community who generate Intellectual Property and to facilitate, where appropriate, the Commercialisation of Intellectual Property created by Staff, Students and Affiliates.

2. SCOPE:

This Policy applies to all Staff, Affiliates, and Students of the University of Canberra. All Intellectual Property created prior to the effective date of this Policy will be governed by the terms of the Intellectual Property Policy in force at that time.

3. PRINCIPLE:

3.1. Ownership of Intellectual Property Created by Staff

- 3.1.1. Except as otherwise provided in a separate agreement, the University owns all Intellectual Property created or originated by Staff:

- a. in the course of employment by the University;
- b. using University Resources;
- c. at the specific request or direction of the University; or
- d. as part of a university research project supported by funding obtained or provided by the University.

3.1.2. The University does not assert ownership over the Intellectual Property in Scholarly or Creative works, unless:

- a. the Creator has been engaged specifically by the University to create such work (an example of these are Course materials); or
- b. the relevant work is subject to an overriding contractual obligation between the University and a third party.

3.1.3. Where the University does not assert ownership in Scholarly Works or Creative Works, it is entitled to a free, irrevocable, ongoing, non-exclusive right to use the relevant work for the University's teaching, research and promotional purposes.

3.1.4. In the absence of a specific agreement to the contrary, the University owns all Intellectual Property in Course Materials.

3.1.5. A Staff member may only use, disclose or Commercialise Intellectual Property owned by the University in accordance with the relevant and applicable Procedure.

3.2. **Ownership of Intellectual Property created by Students**

3.2.1. Except as otherwise provided in this Policy, Students own the Intellectual Property created or originated by the Student.

3.2.2. The University owns Intellectual Property created by a Student where:

- a. the Student has entered into an agreement with the University which specifies the University ownership of the Intellectual Property related to or arising from their activities; or
- b. the Intellectual Property is created using University Background Intellectual Property.

3.2.3. Where the terms of an agreement require the University to own or assign Intellectual Property rights owned by a Student, the University may require the Student to assign their ownership interest to the University in order for the Student to be able to participate in certain projects. Where a Student assigns Intellectual Property to the University, the Student will be treated as Staff in accordance with Item 3.1.

3.2.4. Where the University requires, for its purposes, the use of Intellectual Property rights owned by a Student, the University may require the Student to licence the Intellectual Property to the University. The licence will be on terms negotiated, in good faith, between the Student and the University.

3.2.5. Where a Student is also a Staff member and the subject matter of the Student's study is similar to the subject matter of the work for which the Student is employed, the Intellectual Property created by the Student will be owned by the University in accordance with Item 3.1.

3.2.6. If required by the University, Students must execute an agreement or do everything reasonably necessary to demonstrate or prove ownership of Intellectual Property by the University, secure Protection of Intellectual Property owned by the University or assist the University to develop or Commercialise the Intellectual Property owned by the University.

3.3. **Ownership of Intellectual Property created by Affiliates**

3.3.1. Except as otherwise agreed in a separate agreement, the University owns all Intellectual Property created or originated by Affiliates where:

- b. generation of the Intellectual Property has resulted from the use of Intellectual Property owned by the University;
- c. the Intellectual Property is a component of Intellectual Property generated by a team of which the Affiliate is a member and other members are Staff; or
- d. the Intellectual Property has been generated as a result of any funding provided by or obtained by the University.

3.3.2. If required by the University, Affiliates must execute an agreement or do everything reasonably necessary to demonstrate or prove ownership of the University of Intellectual Property owned by the University, secure protection of Intellectual Property owned by the University or assist the University to develop or Commercialise the Intellectual Property owned by the University.
